CHOOSE YOUR TRACK

In 2022 International Coaching Federation (ICF) has just updated their requirements for coaching organizations and Coach training programs that are accredited by them. As a result of this, we now have two tracks: **The Level 1 Accredited ICF track** for those who want to be credentialed with the ICF. The Regular track for those who don't want to be credentialed with the ICF. Both tracks, when successfully completed, will lead to you becoming a **Certified Human Potential Coach**.

WHAT IS THE ICF?

The **International Coaching Federation** (ICF) is the leading global organization for Coaches and coaching. With over 25 years leading the global advancement of the coaching profession, ICF-credentialed Coaches are recognized as professional Coaches with a commitment to integrity, understanding the mastery of coaching skills, and dedication to Clients.

Our **Level-1 Accredited ICF Human Potential Coach Training** track will fully prepare you to take the next steps in gaining your ICF credential after successful completion of our program. This track includes 10 hours of Mentor Coaching, personal feedback on your coaching and meets all other ICF requirements, so you may proceed directly toward your Associate Certified Coach (ACC) credential upon certification with HPI.

Choosing this track will be right for you if you are interested in pursuing your own coaching business, working as an internal Coach within organizations, and working with employee assistance program providers that provide coaching as a benefit to global corporations. Your investment for the ICF-track is \$6997.

The **Regular Human Potential Coach Training track** is \$4997. This option does not include 10 hours of Mentor Coaching or the personal feedback on your coaching from the Faculty. Payment plans are available for both.
